» All Purpose Dolly

Our All-Purpose three wheel dolly can be used everywhere, from warehouses, offices and showrooms, to schools, hospitals, and even in the home. It's uniquely designed with a center cupped area to help secure furniture legs or casters in place while moving. Heavy gauge steel construction coated with a tough non-mar, skid resistant vinyl finish will help protect and secure your load.

Move almost anything, with or without legs, such as:

- Grand or spinet type pianos
- Pinball machines
- Credenzas and bookcases
- Gang seating
- Display cases
- Bulky crates
- Lab tables

Item No. 3300 • Price: \$70 each

- Load capacity: 400 lbs. each.
- Casters: Three non-mar hard rubber, 2-1/2" x 1-1/8" full swivel.
- Overall dimensions: 8" x 19-3/4."
- Shipping weight: 10 lbs. each. UPS.

With its small size and versatility, the All-Purpose Dolly maneuvers easily into tight spaces.

The All Purpose Dolly is not designed for permanent placement of pianos.

NEW ITEM»

» All Purpose Rectangular Dolly

This new four wheel dolly was designed to offer more stability and load capacity than our original three wheel unit. Heavy 12 gauge steel construction coated with a tough non-mar, skid resistant vinyl finish will protect and secure your load.

Moves anything with or without legs.

- pianos
- lab tables
- pinball machines
- bulky crates
- display cases
- machinery
- sofas

Item No. 3400 • Price: \$80 each

- Load capacity: 550 lbs
- Casters: Four non-mar hard rubber, 2-1/2" x 1-1/8" full swivel
- Overall dimensions: 8 x 19-3/4"
- Shipping weight: 13 lbs. each.
- Shipped UPS one per carton

» Multi-Purpose Two Wheeler

This multi-purpose two wheeler is extra wide with a 22" x 6" - 8 gauge steel nose plate. Ideal for handling large cartons, and at 44-1/2" high, it is perfect for moving a load of stacked chairs as well as other bulky items. The new maintenance-free airless wheels are mounted inside the frame, preventing the tires from interfering while moving your load. Heavy gauge steel finished with our rugged powder coated paint finish.

Item No. 770 • Price: \$202

- Center brace for added support
- Angled handle makes it easy for the operator to hold onto the top of the load
- Airless wheels 10" x 4.1"
- Load capacity: 600 lbs.
- Shipping weight: 38 lbs.
- Ships UPS, one per carton

» **Mighty King.™ The Original Desk Lift.** *Don't make a move without it.*

Engineered for easy moving of most types of office desks by just one person. Reduces labor and moving costs; saves time and effort, too. No need to empty drawers or remove equipment and material from desk tops. Simply roll **Mighty King™** desk lift beneath desk, depress handle and elevate desk. In seconds desk can be rolled in any direction.

All **Mighty King™** desk lifts are manufactured and assembled in the U.S.A. under rigid quality control standards with these special design features:

- Heavy duty casting and steel caster base, powder coated finish.
- Tough non-mar, skid-resistant red vinyl coats the lift frame.
- Handle is removable. Safety latch automatically locks in raised position with a convenient trip for release.
- Sturdy roller-bearing, non-mar hard rubber casters rotate freely in a 360 degree circle for easy maneuvering.
- Shipped fully assembled in one carton.
- Ships UPS.

Finish Options

Powder Coat. Our painting method ensures some of the highest quality coating in the industry. All racks are sandblasted, micro-etched and cleaned with an iron-phosphate treatment. The racks are then primed with a tough, super adhesive epoxy primer before a final thick layer of polyester epoxy powder coat is applied. For this option specify **EPX**.

Hot Dipped Galvanized - GV. Galvanizing is an extremely durable and low cost finish option. For this option specify **GV**.

Stainless Steel - ST. Stainless steel is the most beautiful and durable option. We use a 304 grade stainless steel which will continue to look brand new and attractive for years. For this option specify **ST**.

Mounting Options

Surface Mount - FT. A foot plate is anchored to concrete surface with masonry anchors. For this option specify **FT**.

In-Ground - IG. Foot is embedded below concrete surface. For this option specify **IG**.

Freestanding - FS. Rack is mounted on rails which can be anchored to the ground or left freestanding. For this option specify **FS**.
